"...your wedding day is a story to be told in pictures..."

Rick Gibson's friendly and approachable nature is evident from the moment you first meet him. Living and photographing in Wyoming for over 18 years, his level of expertise matches his friendly service. "I have photographed weddings, children, high school seniors, families, reunions, dances, etc. — the list goes on!" Rick shares.

Rick is keenly aware of his clients' needs, wants and hopes. "I believe that most people want good, honest wedding portraits of themselves, their family and friends as the wedding day unfolds, and at a reasonable price." Rick enjoys creating a relationship with his clients as he captures their special day. "I ask the bride and groom for photographic input, as well as the parents. Your opinion is helpful and valuable to ensure your satisfaction. After all, it is

YOUR wedding!" Rick's style emphasizes the art of storytelling. "To me, your wedding day is a story to be told in pictures. I capture the ceremonies, individual and group portraits, and the special moments that are traditional. I also look for close up, candid photos of people relating and enjoying themselves."

Rick offers flexible service and prices to suit the tastes of his clients. "I can photograph in black and white, color, or both! My motto is, 'Excellence at prices anyone can afford.'"

Rick is happy to travel to the wedding destination of your dreams. "I live in Casper, however, I have photographed extensively throughout Wyoming, Oregon, Washington, Alaska, even to the East Coast for weddings and events." Rick says, "One of my mantras is, 'Have camera, will travel.'"
